

Building Back Safer "Training the Trainers" pilot program held in May by Shelter Cluster Fiji and Habitat for Humanity Fiji (Source: Shelter Cluster)

NEEDS ANALYSIS

- At least 31,200 houses were damaged or destroyed, affecting an estimated 156,000 people within those households across the Fijian archipelago. Immediate needs included distribution of emergency shelter items and NFIs such as tents, tarpaulins, shelter kits, kitchen sets and solar lights, supported by appropriate IEC material.
- Core & transitional shelters, Building Back Safer trainings for carpenters and homebuilders and technical support in complement of Government of Fiji-led 'Help for Homes Initiative' that provide vouchers to enable those affected in destroyed or damaged homes to purchase building materials.

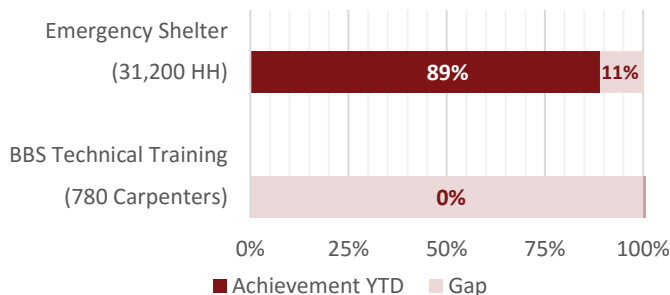

RESPONSE

- Shelter Cluster partners with the Government of Fiji have distributed over 27,600 households worth of emergency shelter, with 50,000 shelter items and NFI in total over the Flash Appeal period (to 21st May).
- Government of Fiji-led 'Help for Homes Initiative' provided vouchers to at least 23,000 households, for a total of \$88 million FJD (\$42m USD).

GAPS / CHALLENGES

- Critical funding gaps remain for Shelter Cluster Fiji partners in this transition to recovery to carry out programs supporting those most vulnerable with repair or retrofit of damaged homes or construction of core shelters for those with completely destroyed homes, in complement of the 'Help for Homes Initiative.'
- Funding & capacity to carry out timely implementation of Building Back Safer technical trainings programs at scale, to support communities in their shelter self-recovery process for appropriate use of building material provided through 'Help for Homes Initiative.'
